

Empowering Independence in Retirement Living Through Intelligent Care Technology

At Talius, we help retirement living providers elevate resident experience through intelligent, integrated technology. Our platform connects care, community, and wellbeing—enabling older Australians to live more independently, safely, and confidently.

Key Features

Resident Wellbeing Dashboards

Track physical, emotional, and social indicators in real time.

Predictive Alerts

Proactively detect health risks before they escalate.

Simplified Community Management

Optimize staffing, activities, and resources with data.

Family Communication Tools

Keep families informed and engaged.

Benefits

- Empower residents with choice and dignity
- Reduce unnecessary hospitalisations
- Enhance staff responsiveness and satisfaction
- Streamline operations and compliance

Our Promise

Talius brings people and data together to enable smarter, safer, and more connected living for older Australians.
